Introduction

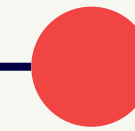

Project process

PROBLEM

Long Waited Patient Queue without proper information

SOLUTION

Display Queue Information on both OPD TV and Patient's Mobile Phone

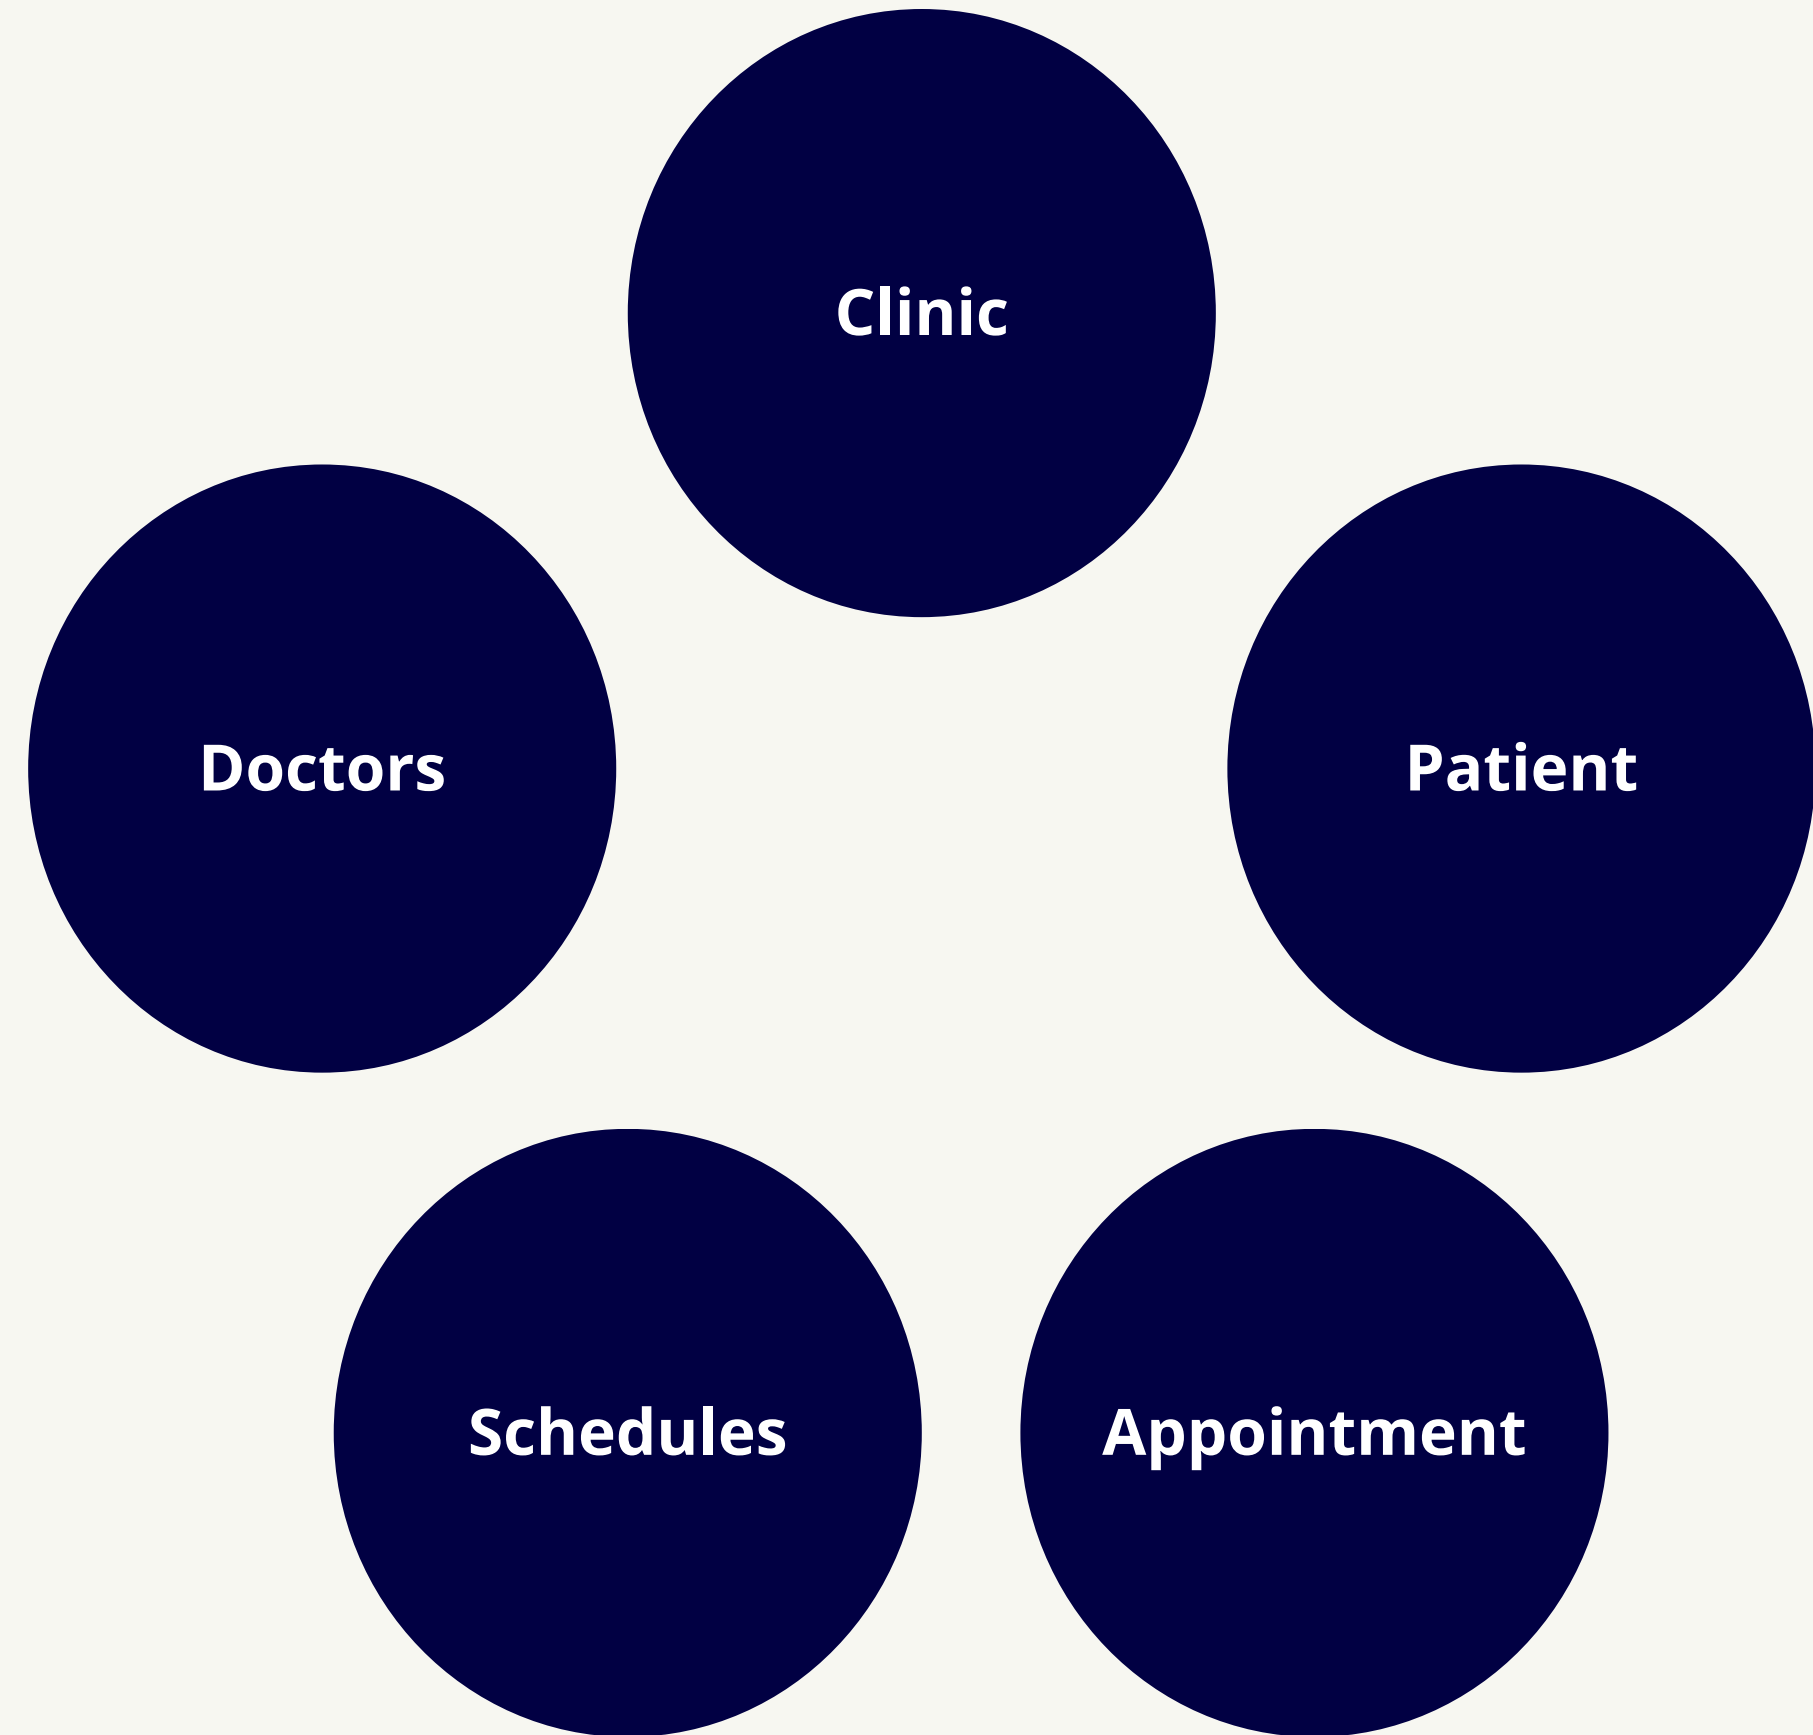

Goals

Goals

OUR METHODOLOGY

We have (5) main modules

How does the project work?

OUR VISION OF THE PROJECT

One click management work flow for busy healthcare staff and doctors.

Methodology

BOOKING

Patient make appointment by making call to Reception.

DATA ENTRY

Healthcare Staff at reception choose doctor schedule and enter patient information to generate token (queue no.)

OPD TV

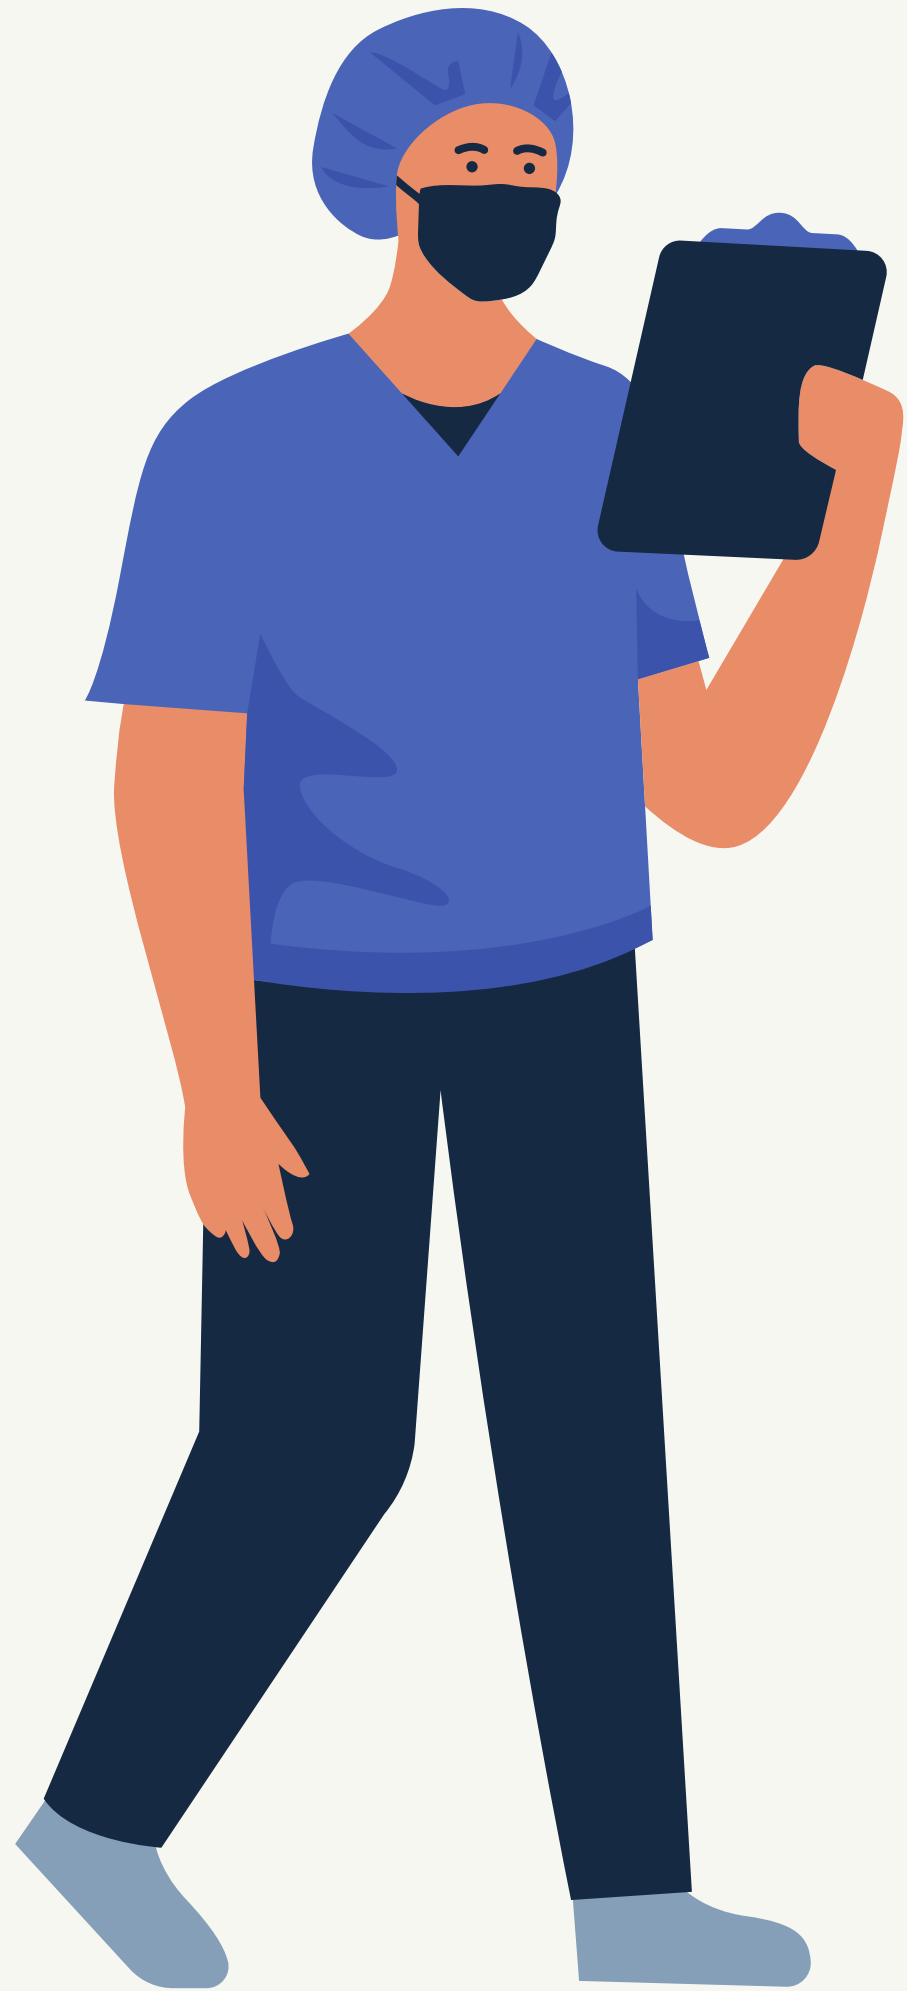

Current doctors' schedules and consulting patient's queue no will be display on OPD Waiting Area TV.

USER'S PHONE

Patient can also see live status of Clinic Queue via their mobile phone.

New Schedule

- Choose Doctor
- Status (Pending | Arrived | Finished)
- Start and End datetime

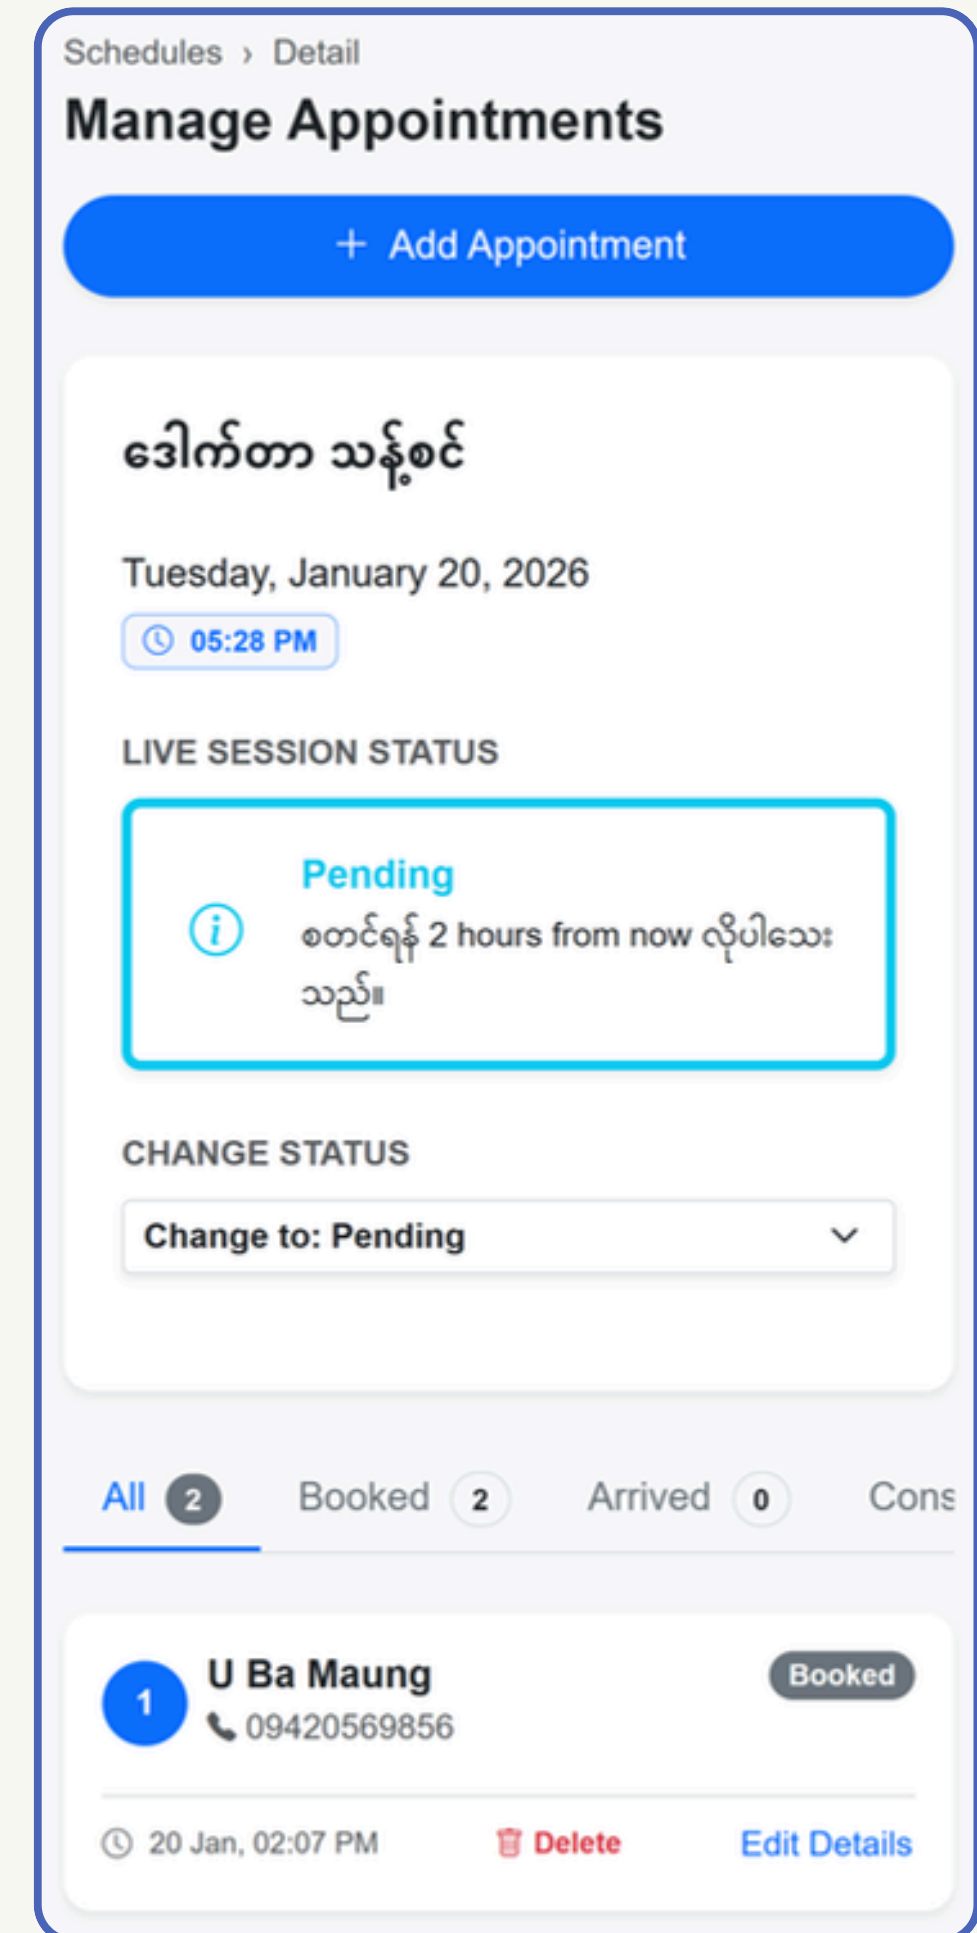

The screenshot shows the 'Create New Schedule' form in the DR. TOKEN app. The form is titled 'Create New Schedule' and has a 'Back' button. It contains the following fields:

- Assigned Doctor:** A dropdown menu with the selected value 'ဒေါက်တာ သန့်စင်'.
- Intake Status:** A dropdown menu with the selected value 'Pending'.
- Start Date & Time:** A date and time picker showing '01/20/2026 03:01 PM'.
- End Date & Time:** A date and time picker showing '01/20/2026 06:01 PM'.

At the bottom of the form is a blue button with a checkmark icon and the text 'Save Intake Record'.

Manage Schedule
